

HEAD & NECK Pathway

THURSDAY 9th May
8-12,30

FRIDAY 9th May

SATURDAY 9th May

8-12.

LONG INSTRUCTIONAL COURSE				INSTRUCTIONAL COURSE				KEYNOTE - Feasibility of double free flaps and a simple algorithm to use double free flaps in Head and Neck Reconstruction							
HEAD AND NECK BONE RECONSTRUCTION – CAD CAM and 3D PRINTING: WHERE WE ARE															
Chairs - De Santis Giorgio - Costa Horacio				07:30	08:30	Instructional Course: Avoid Complication in Microsurgery Moderators : Chang Edward, Cherubino Mario, Felici Nicola				08:50	10:30	Track: Head & Neck 9 Head and Neck Reconstructions: beyond function Moderators : Yadav Prabha - Mureau Mark			
08:00	08:20	20	KEYNOTE - Microsurgical reconstruction of the maxilla, classification, algorithm and concept	Costa Horacio			Avoiding Cmplications in Microsurgery: Lesson lerned from early experience	Chang Edward	08:50	08:58	8	Analysis of mandible reconstruction with Free Fibula Osteocutaneous Flap	Yadav Prabha		
08:20	08:40	20	KEYNOTE - Maxilla: Then and Now	Matros Evan			Prevention of free flap failure	Kim Jeong Tae	08:58	09:02	4	Are Radial Forearm Free Flap, Fibula Osteocutaneous Flap and Anterolateral Thigh Flap Actual Primary Choice For H&N Reconstruction?	Mazzarella Francesca		
WHAT'S NEW							Soft Skills and Hard Truths in Microsurgery / facing complications	Ho Olivia	09:02	09:10	8	Osteomyocutaneous Scapular pedicle Flap for mandible reconstruction in depleted neck vessels	Manfro Gabriel		
08:40	08:50	10	What's New in Mandible Reconstruction? virtual surgical planning and 3D printing	P.B. Garvey, U.S.A.				Cherubino Mario	09:10	09:18	8	Pediatric Head and Neck Reconstruction	Maricevich Marco		
08:50	09:00	10	New technology in Head and Neck reconstruction	Baj Alessandro					09:18	09:22	4	Free TDAP flap reconstruction in Head and Neck Multidisciplinary Cancer Center	Fuzes Attilia		
Q&A					08:30	08:50	KEYNOTE - Head and Neck Reconstruction- Pearls and Pitfalls		Ong Yee Siang	09:22	09:30	8	Free Tissue Transfer in High Energy Avulsive Ballistic Facial Trauma	Ellabban Mohamed	
CAD CAM AND 3D PRINTING					08:50		Track: Head & Neck 4 Head and Neck Reconstruction Moderators: Cesar Casado Sancez - MacGill Kirstie				09:30	09:40	12	Discussion	
09:05	09:13	8	CAD/CAM and 3D printing in head and neck Reconstruction	Su Richard	08:50	08:58	8	Tubes and patches: an algorithmic approach to pharyngeal reconstruction	Berner Juan Enrique	09:40	09:44	4	The Vertical Latissimus Dorsii (VLD) Flap: Usefulness of Muscle Sparing Approach to Elongate the LD Pedicle in Free Scalp Reconstruction	Tenna Stefania	
09:13	09:21	8	Flow chart of CAD CAM and preplating technology in mandibular reconstruction	Riccardo Cipriani	08:58	09:02	4	Fasciocutaneous and jejunal free flaps for circumferential hypopharyngeal defect reconstruction: a 22-year multicenter cohort study	Tonsbeek Michael	09:44	09:52	8	Double free flap reconstruction for locally advanced head and neck cancer	Mureau Mark	
09:21	09:29	8	Maxillary and Mandibular microvascular reconstruction utilizing CAD CAM technology and 3D printing models for in house pre op planning.	Benetatos Konstantinos	09:02	09:10	8	velopharyngeal dysfunction and head and neck cancer reconstruction	MacGill Kirstie	09:52	09:58	6	The experience of Fibrin sealant usage for stabilisation of microvascular pedicle in head and neck reconstruction	Chen Wei-Yu	
09:29	09:37	8	CAD CAM and extra cut possibility in mandible reconstruction	Ramella Vittorio	09:10	09:14	4	Outcomes of pharyngolaryngectomy reconstruction in a high volume UK microsurgical centre; a 13 year experience	Evans Jonathan	09:58	10:06	8	Outcome analysis of free flap reconstruction for head and neck cancer with intraoperative indocyanine green angiography	Lin Chih-Hsun	
09:37	09:45	8	Reconstruction of complex defects of the mandible and Maxillae using 3D modelling	Sørensen Jens Ahm	09:14	09:18	4	Temporoparietal fascia free flaps in laryngeal surgery after radiotherapy	Petrelli Pierluigi	10:06	10:10	4	Scalp Reconstruction Following Oncologic Resection in Elderly Patients: A Retrospective Analysis of 70 Cases Operated for Advanced Cutaneous Tumors	Putti Alessandra	
09:45	09:53	8	Refinements in design of cutting guides for advanced maxillomandibular reconstruction	Mahendru Sanjay	09:18	09:26	8	Reconstruction of Oesophageal and Hypopharyngeal defects using Free Skin Flaps	Karonidis Athanasios	10:10	10:14	4	Microsurgical reconstruction for skull base pathologies: CMF-ENT-NSY collaboration experience of a new center	Ciardello Cristina	
09:53	09:57	4	Head-and-neck defect reconstruction with double simultaneous free-flaps – a multicentric case series and showcase of virtual surgical planning experience	Chung DH Nicholas	09:26	09:36	10	Discussion		10:14	10:18	4	Maxillo facial reconstruction with different bone free flaps	Manapace, Ferrari Silvano	
09:57	10:05	8	Virtual Surgical Planning and Immediate Dental Implants in Head and Neck Reconstruction	Matros Evan	09:36	09:44		Partial glossectomy and reconstruction: functional outcomes	Sgarzani Rossella	10:18	10:30	00:00	Discussion		
10:05	10:11	6	The use of 3D Eagle technology in head neck microvascular reconstructive oncological surgery: the experience of the Head Neck Cancer Unit of Turin	Crosetti Erica	09:44	09:52	8	Large perioral reconstructions and new classification for total lower lip defects	Arslan Hakan	10:30	11:00		Break		
10:11	10:30	19	Q&A		09:52	09:56	4	Assessing the Impact of Free Flap Reconstruction in Coronavirus Disease 2019-Associated Rhino-Orbital Mucormycosis	Rao Neeraj	11:00	11:20		KEYNOTE - Multiple innervation for facial reanimation	Biglioli Federico	

10:30	11:00	30	Break		09:56	10:00	4	Observation on the effect of modified perforator flap of upper arm radial collateral artery in repairing oral defect for 10 years	Min Anjie	11:20	13:00	Track: Head & Neck : Artistry in facial rehanimation 1 Moderators: T. NJ Chang - A. Rodriguez-Lorenzo		
			MISCELLANEA		10:00	10:08	8	Coverage of large calvarial defects with free flaps. Comparison of results between various options	Roca Mas Josep Oriol	11:20	11:28	Strategies of Facial Nerve Reconstruction in the Subacute Facial Palsy	Andres Rodriguez-Lorenz	
11:00	11:08	8	Controversies in Point-of-Care 3D Printing for Oncologic and Reconstructive Surgery with Free Software in Head and Neck Surgery: European Regulation, Costs and Timeframe	Gomez Vicenc J	10:08	10:12	4	The role of microsurgery in craniofacial reconstruction	Aragon Nino Inigo	11:28	11:36	8	Dynamic emotional reanimation for long-standing VII palsy: status 2024	Paul Guelickx
11:08	11:14	6	The 3D Bologna- plate: Prosthetically-guided mandibular reconstruction using fibular free flap, an alternative to the double barrel technique	Ceccariglia Francesco	10:12	10:20	8	Head and neck reconstruction in the elderly population	Karatan Berrak	11:36	11:42	8	Tricks for gracilis transfer	Bolognesi Federico
11:14	11:22	8	Versatility of Chimeric Fibula Free Flap in Reconstruction of Composite Head and Neck Defects.	Massarelli Olindo	10:20	10:30	10	Discussion		11:42	11:50	6	Simultaneous lower lip suspension with FFMT to improve smile symmetry	Lu Johnny Chuieng-Yi
11:22	11:30	8	Contemporary Mandibular reconstruction: progress towards functional reconstruction	Fernandes Rui	10:30	11:00		Break		11:50	11:58	8	Peripheral nerve surgery after the head and neck tumor ablation	NJ Chang Tommy
11:30	11:38	8	Piezosurgery, technical advantages in mandubular reconstruction	Bolognesi Federico, Cuccurullo Marco	11:00	11:20		KEYNOTE - Chimeric flaps in head and neck	Maciejewski Adam	11:58	12:06	8	Using tfl tendon sling to overcome debilitating consequences of long term lower lid paralysis in facial palsy	Ercan Alp
11:38	11:46	8	Implant stability evaluation in free vascular rised bone flap for mandible and maxilla	Anesi Alexander	11:20			Track: Complex reconstructions in Head & Neck Moderators: Halle Martin - Largo Rene		12:06	12:14	8	Discussion	
11:46	12:20	20	Q&A		11:20	11:28	8	Reconstruction of Composite Head and Neck Defects Using Free Combined Flaps	Baghaki Semith	12:14	12:22	8	Effectiveness of double cross face nerve graft with hypoglossal facial nerve interpositional-jump graft for the facial reanimation reconstruction.	Kitamura Shigeki
			LUNCH		11:28	11:36	8	Sarcomas in head and neck: reconstructive procedures	Lasso Jose Maria	12:22	12:28	8	Vertical Cross-face for Lacrimal Gland Neurotization: a Novel Surgical Procedure to Wet the Ocular Surface in Facial Nerve Palsy	Bolognesi Federico
13:00	13:20	20	KEYNOTE: Extended and atypical indications in jaw reconstruction	De Santis Giorgio	11:36	11:44	8	Reconstructive and Aesthetic Challenges in the Irradiated Head and Neck patient	Halle Martin	12:28	12:36	6	Aesthetic refinements in facial palsy	Otero Gonzales Teresa
13:20		90	Track: Head & Neck 1 : Advanced bone reconstruction in Head and Neck : Horacio Costa - Gravvanis Andreas		11:44	11:48	4	Head & neck sarcomas in adults. A single institution 20-year experience	Bini Aikaterini	12:36	12:42	8	Dynamic Surgical Restoration of Mid and Lower Facial Paralysis: A Single-Greek-Centre Experience	Neamonitou Foteini
