

Friday May 10th

INSTRUCTIONAL COURSE		INSTRUCTIONAL COURSE		INSTRUCTIONAL COURSE		INSTRUCTIONAL COURSE		INSTRUCTIONAL COURSE												
07:30	08:30	Instructional Course: Breast 1 pap flap in breast reconstruction Moderator: Andrea Figus Susana Heredero - Rene Largo		07:30	08:30	Instructional Course: Avoid Complication in Microsurgery Moderators : Chang Edward, Cherubino Mario, Felici Nicola		07:30	08:30	Instructional Course: Surgical alternatives for maximising bionic limb reconstruction Moderators: Paolo Sassu, Aszmann Oskar		07:30	08:20	Instructional Course on NERVE TRANSFERS Goubier Jean Noel - Lu Johnny		07:30	08:20	Trailblazing concepts in the microsurgical reconstruction of the Wrist and DRUJ Moderators : Lucian Jiga - Jason Ko		
		PAP flap in Breast reconstruction	Mohanna Pari-Naz			Avoiding Cmplications in Microsurgery: Lesson lerned from early experience	Chang Edward			Introduction - bionic limb where we are	Aszmann Oskar			Nerve transfers for shoulder paisyies	Goubier Jean Noel			Free vascularised concave flaps for management of posttraumatic articular surface loss of the radius	Jiga Lucian	
		The banana shaped PAP flap: anatomic CT study and clinical experience	Zelter Assaf			Prevention of free flap failure	Kim Jeong Tae			Rehabilitation of patients receiving bionic limb reconstruction	Anna Bösendorfer			Nerve transfers for musculocutaneous nerve injuries	Lu Johnny			Microsurgical reconstruction of the Scaphoid and the Lunate using flaps from the femoral condyle	Windhofer Christian	
		Different strategies between the PAP and DIEP flaps.	Han Hyun Ho			Soft Skills and Hard Truths in Microsurgery / facing complications	Ho Olivia			Highly integrated bionic limbs and neurorehabilitation of pain	Max Ortiz-Catalan			Distal Transfers for radial nerve palsies, nerve transfers for median nerve palsies	Jerome Terrence Jose			Microsurgical reconstruction of the wrist after infection and tumor removal	Ko Jason	
		ORFrom LaP to PaP: evolution in autologous breast reconstruction practice	Levine Joshua			My beautiful flap is lost and now ?	Cherubino Mario			Restoration of authentic sensitivity in limb loss - how targeted sensory reinnervation (TSR) enables somatotomy and spatial sensory capacity of the hand or foot on the residual limb	Gardetto Alexander			Distal nerve transfers for ulnar nerve palsies	Battiston Bruno					
08:30	08:50	KEYNOTE - Keyfactors for successful breast reconstruction Mani Maria		08:30	08:50	KEYNOTE - Head and Neck Reconstruction- Pearls and Pitfalls Ong Yee Siang		08:30	08:50	KEYNOTE - Distal finger replantations Kabaş Fatih		08:30	08:50	KEYNOTE - My Strategic Approach to Complete Traumatic Brachial Plexus Injuries Bacakoğlu Ali Abdülkadir		08:30	08:50	KEYNOTE - Difficult chest wall reconstructions Mathes David		
08:50	10:30	Track: Breast considering the donor site in autologous breast reconstruction Moderators: Harder Yves - Eom Jin Sup		08:50	10:30	Track: Head & Neck 4 Head and Neck Reconstruction Moderators: Cesar Casado Sancez - MacGill Kirstie		08:50	10:30	Track: Hand and finger Replantation : where we are ! Moderators: Özçelik İsmail Bülent - Zic Rado		08:50	10:30	Track: Peripheral nerve total plexus palsy : modern alternatives Moderators: Raimondi Piero - Casanas Joaquin		08:50	10:30	Track: Trunk. Chest, abdomen reconstruction Reconstruction 2 Moderators: Jaime Estrada - Marco Pignatti		
08:50	09:58	Scarless donor-site closure with the Donut DIEP flap	Lee Dong Won	08:50	09:58	Tubes and patches: an algorithmic approach to pharyngeal reconstruction	Berner Juan Enrique	08:50	09:58	The effect of single and double artery repair without vein anastomosis in Tamai zone I fingertip replantation	Jusoh Mohd Hanifa	08:50	09:58	Virtual follow-up for the patients with total brachial plexus injuries using a WeChat mini program-based method	Zhu Qingtang	08:50	09:58	Perforator propeller flaps in posterior trunk sarcoma reconstruction	Mah Eldon	
08:58	09:06	Enhancing aesthetic outcome of the donor site of the DIEP flap	Eom Jin Sup	08:58	09:02	Fasciocutaneous and jejunal free flaps for circumferential hypopharyngeal defect reconstruction: a 22-year multicenter cohort study	Tonsbeek Michael	08:58	09:02	Does It Worth For Effort? Long Time Outcomes of 38 Fingertip Replantations in Adults with Comparable Techniques	Oz Kurtulus	08:58	09:04	Use of a pedicled vascularized ulnar nerve as a long graft for complete brachial plexus palsy in adults to restore elbow flexion: Should this practice continue?	Echalier Camille	08:58	09:06	Complex chest wall defects reconstruction. A multicenter experience	Pignatti Marco	
09:08	09:14	Unilateral breast reconstruction with latissimus dorsi flap and symmetrization in one stage; Technical tips and tricks for private Doc	Özkaya Özay	09:02	09:08	velopharyngeal dysfunction and head and neck cancer reconstruction	MacGill Kirstie	09:02	09:10	Efficiency in finger and hand replantation: Practical Tips	Barbato Bruno	09:04	09:12	Cross-chest pectoralis major nerve transfer and free gracilis muscle transplantation for total brachial plexus avulsions	Calcagni Maurizio	09:06	09:14	Increasing reach of pedicled perforator flaps for oncological soft tissue defects in the trunk - exploiting the vasculosome theory	Basu Adhish	
09:14	09:22	Autologous breast reconstruction in Kenia	Cristina Garusi	09:10	09:14	Outcomes of pharyngolaryngectomy reconstruction in a high volume UK microsurgical centre; a 13 year experience	Evans Jonathan	09:10	09:14	Should the artery be trimmed before anastomosis in every finger replantation/revascularization case? Prospective, single-center, multidisciplinary study over 46 months	Pichonnat Marine/ Buffet Alexandre	09:12	09:18	Clinical examination versus electromyography in traumatic adult brachial plexus injury- analysis of diagnostic accuracy	Onciu Crina-Victoria	09:14	09:22	Reconstruction of posterior trunk defects with perforator flaps	Özkan Burak	
09:22	09:30	Breast shaping in delayed autologous breast reconstruction	Ayhan Sühan	09:14	09:28	Temporoparietal fascia free flaps in laryngeal surgery after radiotherapy	Petrelli Pierluigi	09:14	09:26	Replantation of distal finger and fingertips	Farahani Mohammadjava d	09:18	09:26	Discussion		09:22	09:32	Discussion		
09:30	09:40	Discussion		09:28	09:36	Reconstruction of Oesophageal and Hypopharyngeal defects Using Free Skin Flaps	Karonidis Athanasios	09:28	09:36	Discussion		09:28	09:36	Proposal of reconstruction of complete brachial plexus lesion by innovative transfers	Bruno Battiston	09:32	09:40	Clavicle and sternal Reconstruction with free fibula	Maricevich Marco	
09:40	09:48	Donor site refinements in DIEP breast reconstruction	D'Arpa Salvatore	09:36	09:44	Discussion		09:36	09:44	Myths in finger replantations	Nazaryan Georgiy	09:36	09:44	the brain-science-based hand surgery : failures could be also a maladaptation of the brain network	Hirata Hitoshi	09:40	09:46	From angiosomal to extra-angiosomal perforator flaps in abdominal wall reconstruction: a proof of	Pazzaglia Matteo	
09:48	09:56	Looking for efficiency in microsurgical breast reconstruction: the importance of a standardised breakdown process	Figus Andrea	09:36	09:44	Partial glossectomy and reconstruction: functional outcomes	Sgarzani Rossella	09:44	09:52	Tricks of end-to-end anastomosis in replantation surgery	Yıldırım Gökçe	09:44	09:50	is it possible to follow the risk of the rupture after end to end nerve repair in brachial plexus surgery	Yücutürk Aidin	09:46	09:54	Complex thoracic and abdominal defects reconstruction.	Estrada Jaime	
09:56	10:04	Autologous breast reconstruction in our institution: a Journey started 35 years ago, from bipedicle tram flap to "total breast restoration"	Germano Silvia, Merlino Giorgio	09:44	09:52	Large perioral reconstructions and new classification for total lower lip defects	Arslan Hakan	09:52	09:56	Functional Outcomes of Pulp Replantation in Clinical Practice	Duah-Asante Kwaku	09:50	09:56	The reliability of a WeChat mini program-based method for the movement monitoring of patients with total brachial plexus injuries	Fan Jingyuan	09:54	10:02	Microsurgical reconstruction of the abdomen: Pearls, pitfalls and outcomes	Gurunian Raffi	
10:04	10:08	Changing the Game, Options for recipient vessels in Autologous Breast Reconstruction: a case series	Belloni Laura Maria	09:52	09:56	Assessing the Impact of Free Flap Reconstruction in Coronavirus Disease 2019-Associated Rhino-Orbital Mucormycosis	Rao Neeraj	09:56	10:00	New technique in ear replantation: arterial only anastomosis associated with modified Baudet technique	Amarandei Alexandru	09:56	10:04	contralateral C7 in severe brachial plexus lesions	Bahm Jorg, Goubier Jean Noel	10:02	10:10	Challenges in selecting recipient vessels for extensive chest wall reconstruction	Chow Whitney	
10:08	10:16	Abdominal Angiosomes in clinical practice - From micro - to megasurgery	Leifur Gudjon	09:56	10:00	Observation on the effect of modified perforator flap of upper arm radial collateral artery in repairing oral defect for 10 years	Min Anjie	10:00	10:08	Fingertip Replantation – Surgical Technique, and Tips and Tricks	Hayashi Kota	10:04	10:12	free functional muscle transfers for plexus lesions	Verkis Marios	10:10	10:16	Chest Wall Reconstruction in Recurrent Breast Tumor	Shiuan Shyu	
10:16	10:30	Discussion		10:00	10:08	Coverage of large calvarial defects with free flaps. Comparison of results between various options	Roca Mas Josep Oriol	10:08	10:14	Application experience of TIVS in upper arm amputation	Zhang Hang	10:12	10:30	Discussion		10:16	10:30	Discussion		
				10:08	10:12	The role of microsurgery in craniofacial reconstruction	Aragon Nino Inigo	10:14	10:30	Discussion										
				10:12	10:20	Head and neck reconstruction in the elderly population	Karatan Berrak													
				10:20	10:30	Discussion														
10:30	11:00	Break		10:30	11:00	Break		10:30	11:00	Break		10:30	11:00	Break		10:30	11:00	Break		
11:00	11:20	KEYNOTE - Algorithm surgical treatment of lymphoedema for children Becker Corinne		11:00	11:20	KEYNOTE - Chimeric flaps in head and neck Maciejewski Adam		11:00	11:20	KEYNOTE - Anatomy of hand arteries of the hand: evidence for surgical reconstruction Brunelli Francesco		11:00	11:20	KEYNOTE - Nerve transfers in Adult Brachial Plexus Palsy Berköz Ömer		11:00	11:20	KEYNOTE - How Thin Can We Transfer as a Vascularized Tissue? Subdermal Dissection Technique for Direct Super-thin and Pure Dermis Flap Elevation without Primary Thinning Yamamoto Takumi		
11:20	11:40	Track: Lymphedema 1 Lymphedema Surgical Tips & Tricks Moderators: Nistor Alex - Corrado Campisi		11:20	11:40	Track: Complex reconstructions in Head & Neck Moderators: Halle Martin - Largo Rene		11:20	11:40	Track: Finger trauma and reconstruction Moderators: Giesen Thomas - Jerome Terrence Jose		11:20	11:40	Track: nerve transfers 1 Moderators: Voegelin Ester - Harhaus Leita		11:20	11:40	Track: Innovative Reconstructive Surgery, innovative Techniques, innovative technology - Stepping Out of the Box Moderators: Zelter Assaf - Vester-Glowinski Peter Viktor		
11:20	11:28	Lymphatic Microsurgery Treat Primary and Secondary Lymphedema: a Step-by-Step Decision-Making Algorithm	Campisi Corrado	11:20	11:28	Reconstruction of Composite Head and Neck Defects Using Free Combined Flaps	Baghaki Semith	11:20	11:28	Fingertip injuries outcome score	Jerome Terrence Jose	11:00	11:28	Intraoperative recording and nerve transfers	Casanas Joaquim	11:20	11:26	Complex limb reconstruction with a prefabricated medial femur condyle chimeric flap including a superficial circumflex iliac artery perforator flap: 5 cases	Giesen Thomas	

11:28	11:36	8	Evolving Role of Lymphatic Surgery on Breast Reconstruction	Cho Min-Jeong	11:28	11:36	8	Sarcomas in head and neck: reconstructive procedures	Lasso Jose Maria	11:28	11:34	6	Fingertip injuries. Microsurgery or secondary healing?	Athanaselis Efstratios	11:28	11:34	6	Outcome of surgical repair of major nerve trunk injuries in the upper limb in relation to level of injury and presence of secondary procedures	Dahlin Lars	11:28	11:34	8	Novel techniques for Tracheal Reconstruction	Haykal Siba
